IsoQure® ZnO Transparent

Chemical name: Zinc oxide

CAS Number: 1314-13-2

EINECS Number: 215-222-5

Material Definition

Appearance: White to slightly yellowish powder

ZnO Content: 70 – 74 %

Ignition Loss (800°C, 4h): 25 – 29 %

Heavy Metal as Lead (Pb): Max. 0.001 %

Copper (Cu): Max. 0.001 %

Manganese (Mn): Max. 0.0015 %

Cadmium (Cd): Max. 0.0005 %

Handling, Storage and Packaging

The processing and use of IsoQure® ZnO Transparent requires adequate technical and professional knowledge. Please consult safety data sheet and observe local safety regulations. The legal requirements prevailing in your country, especially in the avoidance of accidents, working hygiene and patent rights must be observed.

Net weight 25 Kg in PP bags.

Regulatory Information

EU REACH registered: Yes

TSCA: Listed

Availability

- Americas (United States, Canada, South America)
- APAC (Asia-Pacific)
- ANZ (Australia, New Zealand)
- EU (European Union)
- PRC (People's Republic of China)
- UK (United Kingdom)

Disclaimer / Conditions

Revision: 2018-12-14 / efff

We strive to be accurate in all of our documentation. However, any information or advice is provided by us in good faith, without warranty or unlimited claim of fitness for a specific application. We sell to qualified industrial users only. The onus is on the product's user to research carefully and then to continually test the product and its application procedures within the context of its specific use. Use of our products and data requires diligance and care, and is within the sole responsibility of the user. Kautschuk-Group does not accept any liability for damages incurred. Our general Terms and Conditions (/info/toc) apply.

Stated storage and shelf life times are minimum guaranteed values for a period starting on the day of shipment. After this period has expired, the product requires additional quality control testing but may very well still be within specification. For more information, refer to our Shelf Life Policy (/info/shelflife).
